

ENVIRONMENTAL POLICY STATEMENT

ACCIONA Infrastructure Australia Pty Ltd (ACCIONA) is committed to innovation, sustainability and the application of the latest technologies in its activities involved with the provision of solutions related to the development, design, construction, operation and asset management of public and private infrastructure.

ACCIONA Management is committed to incorporation of environmental considerations in decision-making and the operations of its business, so as to reduce the Company's environmental footprint and to eliminate the risk of environmental complaints, infringements and non-compliances.

ACCIONA's goals include prevention of pollution and other adverse environmental impacts, efficient use of resources and recycling of materials. ACCIONA undertakes to provide the necessary resources and management support to achieve these goals. In particular, ACCIONA has established and will maintain, review and continually improve a program for the implementation and management of environmental factors that we can control or influence in the delivery of our services.

This program includes:

- Demonstrated leadership and encouragement of teamwork and participation at all levels of ACCIONA in planning and development of activities;
- Compliance with legal and Client requirements including the Environmental Protection Acts, all other applicable legislation, regulations, industry codes of practice and project specific requirements;
- Establishing measurable objectives and targets to quantify ACCIONA's environmental performance and to demonstrate continual improvement;
- Consultation and communication with employees, contractors, Clients, key stakeholders and the community on social and environmental issues;
- Clearly defining responsibilities and accountabilities for all employees and contractors;
- Identifying and assessing environmental factors related to ACCIONA's activities in all Project phases;
- Developing and implementing methods to eliminate or minimise environmental impacts;
- Regular monitoring and auditing of processes and activities on the basis of indicators, to obtain information to enhance ACCIONA's environmental performance and the identification of preventive actions to improve on this performance;
- Encouraging environmental awareness among all ACCIONA's people by providing adequate resources for the provision of relevant information, training, support and supervision to all employees;
- Collaboration with our suppliers and contractors to influence them positively and increase their involvement in all aspects concerning the environment.

All personnel are responsible and accountable for participating in the implementation of our certified ISO 14001 Environmental Management System by identifying and proposing possible improvements in line with the Company objectives, Client needs and social expectations of performance.

This Policy is communicated to all levels of the organisation, both directly and by publication in appropriate places including the ACCIONA Intranet, website and notice boards.

This Policy is available to all potentially affected parties and will be periodically reviewed to ensure that it remains relevant and appropriate to the business operational scope.

Fernando Fajardo
